

OXY-GEN AND SUREFED JOIN FORCES TO PRODUCE THE WORLD'S BEST FEEDS.

By Dr. Jack McEowen

I have become the Chief Operating Officer of SureFed Feeds in Brady, Texas. Dave Barksdale will remain as Chairman of the Board of Directors. We are both dedicated to producing the world's best complete feeds by integrating the technology of OXY-GEN® into the 360,000 tons of feed capacity at the Brady pelleting and block production plant.

Officer
SureFed Feeds
Brady, TX

Here's What You Can Expect

SHAG™ is currently the nation's most winning steer and heifer supplement. You can expect SHAG technology, which replaces the need for coolers, to be in every bag of our show cattle complete feeds and like our supplement, it will be the world's best.

FEMININITY™ is currently the nation's leading show heifer supplement, having won every major heifer show in North America. You can expect every bag of our heifer complete feeds to provide winners that breed on the first straw.

GRAND GOAT™ is currently the most winning goat supplement in North America. It is the new standard and many major feed manufacturers include it under license from OXY-GEN® in their products. You can expect every bag of our complete goat feeds to contain **GRAND GOAT™**, **FULL STREAM™** and **DEPOT™** and, like our supplements, to be the world's best.

LEGAL LAMB™ and **HOME STRETCH™** have become the new standard in supplements designed to help our customers beat unethical people using illegal, off-label drugs. We are going to combine these supplements along with **FULL STREAM™** and **DEPOT™** in every bag of complete lamb feeds.

Until now we did not have the production capabilities in Texas to take advantage of the success we have had in other parts of the country with our swine supplements which dominate the Oklahoma show pig market because they are the most winning. A study at the University of Arizona has demonstrated up to a 13 percent gain in feed efficiency and a similar rate of gain—vastly outperforming Paylean®. You can expect this technology in every bag of our show pig complete feeds. It will be the world's best.
